Crowning touches for a home or palace.

INSPIRED BY THE SPECTACLE of the Royal wedding? You can pay homage to the happy couple or just indulge in a little English patriotism with some decorating items that quite literally wave the flag – albeit in a very modern way. From Union Jack-upholstered sofas to bowler hats on stands, mounted deer heads and bird trays, these empire lines can turn any home into Little Britain. And, with *Belle* available in London, who knows, William or Kate might just pick up this issue and think, “That is exactly how I want my new digs to look, and why not go straight to the source and get him (that would be me) to design it!”
